

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH),
regulation (EU) No 453/2010 and regulation (EC) No 830/2015

Version: 1.1

Revision date: 14/09/2017

Date of previous issue: 31/01/2017

Fertilizer Nutriphos classic 16-20-0+32SO₃

SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1 Product identifier

Commercial Product Name : Fertilizer Nutriphos classic 16-20-0+32SO₃

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Substance/Mixture : Fertilizer. For consumers and professional users.

1.3 Details of the supplier of the safety data sheet

Company (Distributor) : HELLAGROLIP SA
Pentelis 34A
175 64, Palaio Faliro
e-mail: g.director@hellagrolip.com
www.hellagrolip.com

Telephone : +30 2510 317127 και +30 2130 037616

Fax : +30 210 9408198

1.4 Emergency telephone number

In case of medical emergencies, please contact your local poison control center.
Company's Telephone: +30 2510 317127 και +30 2130 037616 (08:30 to 16:30)

SECTION 2: HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008) - CLP

This mixture is classified as not hazardous according to regulation (EC) 1272/2008 [CLP].

2.2 Label elements CLP

Hazard pictograms:

Signal word:

Hazard Statements:

Precautionary Statements:

Hazardous components which must be listed on the label:

2.3 Other hazards

None known.

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH),
regulation (EU) No 453/2010 and regulation (EC) No 830/2015

Version: 1.1

Revision date: 14/09/2017

Date of previous issue: 31/01/2017

Fertilizer Nutriphos classic 16-20-0+32SO₃

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Mixtures

Classified components according to EU Chemicals Legislation:

Further information

The substance does not meet the criteria for classification according to Regulation (EC)No. 1907/2006 as PBT or vPvB.

SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

General advice

: In case of accident or if you feel unwell, seek for medical advice immediately. Show the label when possible and/or this safety data sheet to the doctor in attendance.

If inhaled

: Avoid dust formation during use.
Inhalation of dust may cause irritation of the respiratory system.
In case of respiratory system irritation, consult a physician.

In case of skin contact

: After contact with skin, wash with plenty of water.
Take off immediately all contaminated clothing and wash it before reuse.

In case of eye contact

: In case of contact with eyes, rinse immediately with plenty of flowing water for 10 to 15 minutes holding eyelids open.

If swallowed

: Typically no exposure pathway.
If accidentally swallowed, rinse the mouth with plenty of water (only if the person is conscious) and ask immediately for medical help.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms upon:

- **Inhalation:** Cough, Risk of pulmonary edema. Symptoms can appear later.
- **Skin contact:** None known
- **Eye contact:** May cause eye irritation.
- **Ingestion:** No data available

4.3 Indication of any immediate medical attention and special treatment needed

Provide symptomatic treatment.

SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media

: The product is not flammable / combustible. In case of fire in the surroundings: all extinguishing agents allowed.

Unsuitable extinguishing media

: None known.

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH),
regulation (EU) No 453/2010 and regulation (EC) No 830/2015

Version: 1.1

Revision date: 14/09/2017

Date of previous issue: 31/01/2017

Fertilizer Nutriphos classic 16-20-0+32SO₃

5.2 Special hazards arising from the substance or mixture

Specific hazards during firefighting : In the event of a fire or decomposition involving various nitrogen-based fertilizers, hazardous decomposition products will be formed, such as: Nitrogen oxides (NO_x), Sulphur oxides. Exposure to decomposition products may cause serious damage to health.

5.3 Advice for firefighters

Special protective equipment for fire-fighters : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

Further information : No data available.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

See protective measures under point 7 and 8.

Avoid inhalation of dust. Ensure sufficient ventilation especially in enclosed spaces.

6.2 Environmental precautions

Do not let product enter drains. Discharge into the environment must be avoided.

6.3 Methods and material for containment and cleaning up

Stop leak if without risk.

During cleanup, you should wear appropriate PPE, to prevent any skin/eye contact and inhalation of dust.

Avoid creating dust during clean-up. Do not use compressed air to clean up spills.

6.4 Reference to other sections

Refer to section: 7, 8, 11, 12 and 13.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling

Advice on safe handling : Avoid eye and excessive skin contact.
Provide appropriate exhaust ventilation at places where dust is formed.
Do not eat, drink or smoke when handling.
Wash hands after handling

Advice on protection against fire and explosion : Not applicable

Dust explosion class : Not applicable.

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers : Handle bags with care. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area.
Protect against moisture. The product may cake under the influence of moisture.

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH),
regulation (EU) No 453/2010 and regulation (EC) No 830/2015

Version: 1.1

Revision date: 14/09/2017

Date of previous issue: 31/01/2017

Fertilizer Nutriphos classic 16-20-0+32SO₃

Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage.

- Advice on common storage** : Keep away from food, drink and animal feedingstuffs.
Storage Temperature : Ambient temperature (5 - 30°C).
Other data : The product is hygroscopic.

7.3 Specific end use(s)

Fertilizer.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

Chemical name	EINECS (1)	CAS-No (2)	Note: (3)	WEL-TWA (4)		WEL-STEL (5)		Source
				ppm ⁽⁶⁾	mg/m ³ (7)	ppm ⁽⁶⁾	mg/m ³ (7)	
---	---	---			---		---	---

(1) EINECS: European Inventory of Existing Chemical Substances

(2) CAS: Chemical Abstract Service Registry Number.

(3) The notation "skin" (D), implies the possibility of a significant absorption through the skin when in direct contact with the substance.

(4) WEL-TWA: Workplace Exposure Limit - Time-Weighted Average value of exposure over the course of an 8 hour work shift.

(5) WEL-STEL: Workplace Exposure Limit - Short-term exposure limit (15-minute reference period)

(6) ppm: parts per million volume in air (ml/m³).

(7) mg/m³: measured at a temperature of 20 °C and atmospheric pressure (101,3 kPa).

8.2 Exposure controls

Appropriate engineering controls

Prevent generation of dust. Provide adequate ventilation in work and storage areas.

Personal protective equipment

Respiratory protection

- : Special respiratory protection measures are not required when applied under normal or reasonably foreseeable conditions of use and in a well ventilated area. In case of inadequate ventilation and/or dust formation wear respiratory protection.
Recommended: half-mask for dust/particles (EN 149) or half-mask (EN 140) with filter type P1 or FFP1 for dust (EN 143).

Hand protection

Material

- : Impervious chemical resistant protective gloves (EN 374, EN 420) and gloves for protection from mechanical risks (EN 388).

Glove thickness

: ---

Break through time

: ---

General remarks

- : Final selection of glove material must be made taking the breakthrough times, permeation rates and degradation into account.

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH),
regulation (EU) No 453/2010 and regulation (EC) No 830/2015

Version: 1.1

Revision date: 14/09/2017

Date of previous issue: 31/01/2017

Fertilizer Nutriphos classic 16-20-0+32SO₃

- Eye/face protection : In case of splash risk, wear safety glasses with side-shields conforming to EN166.
- Skin and body protection : Choose body protection according to the amount and concentration of the dangerous substance at the work place.
- Hygiene measures : General hygiene measures for the handling of chemicals are applicable. Observe good industrial hygiene practices:
- General practical hygiene measures.
 - Do not breathe vapour /cloud /gas /dust.
 - When using do not eat, drink or smoke.
 - Wash hands before breaks and at the end of work.
 - Avoid contact with skin, eyes and clothing. Take off contaminated clothing and wash before reuse.

Environmental exposure controls

- General advice : Do not flush into surface water or sanitary sewer system. Prevent entry into sewers and waterways, dispose of in accordance with all federal, state and local environmental regulation. If the product contaminates rivers and lakes, inform respective authorities.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Appearance	: Solid
Colour	: White
Odour	: None
Flash point	: The product itself is not combustible
Lower Flammable Limit	: Not applicable
Upper Flammable Limit	: Not applicable
Autoignition	: The product itself is not self-ignited
Explosive properties	: The product is not explosive.
Lower explosive limit	: Not applicable
Upper explosive limit	: Not applicable
pH (20 °C)	: Not applicable
Melting point/melting range (°C)	: No data available
Boiling point/boiling range (°C)	: 210 °C
Vapour pressure	: Not applicable
Density	: No data available
Relative density	: No data available
Solubility in water	: Soluble
Solubility in other solvents	: No data available
Partition coefficient n-octanol/water:	: No data available
Viscosity, dynamic	: Not applicable
Viscosity, kinematic	: Not applicable
Oxidising properties	: Not applicable.

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH),
regulation (EU) No 453/2010 and regulation (EC) No 830/2015

Version: 1.1

Revision date: 14/09/2017

Date of previous issue: 31/01/2017

Fertilizer Nutriphos classic 16-20-0+32SO₃

9.2 Other information

None known.

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity

No data available.

10.2 Chemical stability

The material is stable under normal conditions of use and storage and will not decompose spontaneously. Though, may decompose when heated. The risk of decomposition depends upon the temperature of the heat source, the duration of exposure to the heat source and the containment of the fertilizer.

10.3 Possibility of hazardous reactions

No hazardous reactions known if used for its intended purpose.

10.4 Conditions to avoid

May decompose when heated. Cross-contamination of the fertilizer with other chemicals must be avoided.

10.5 Incompatible materials

Materials to avoid: Chlorates, nitrites, oxidizing agents, bases, alkali metals.

10.6 Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products is not possible to be produced. May decompose when heated. Decomposition may release toxic gases such as NO_x, N₂O, ammonia, or nitric acid vapors.

SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Dangerous health implications

In case of exposure that is repetitive, prolonged or at concentrations higher than recommended by the occupational exposure limits (see section 8), it may result in adverse effects on health depending on the means of exposure.

11.1.1. Ingestion:

Based on available data, the classification criteria are not met, however, it contains substances classified as dangerous for ingestion (see section 3).

11.1.2. Inhalation:

Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for inhalation (see section 3).

11.1.3. Contact with the skin and the eyes:

Causes serious eye irritation. (see section 3).

11.1.4. CMR effects (carcinogenicity, mutagenicity and toxicity to reproduction):

Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for the effects mentioned (see section 3).

11.1.5. Respiratory or skin sensitisation:

Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous with sensibilizing effects (see section 3).

11.1.6. Specific target organ toxicity (STOT)-single exposure:

Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for inhalation. (see section 3).

11.1.7. Specific target organ toxicity (STOT)-repeated exposure:

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH),
regulation (EU) No 453/2010 and regulation (EC) No 830/2015

Version: 1.1

Revision date: 14/09/2017

Date of previous issue: 31/01/2017

Fertilizer Nutriphos classic 16-20-0+32SO₃

Based on available data, the classification criteria are not met, as it does not contain substances classified, as dangerous for inhalation (see section 3).

11.1.8. Aspiration hazard:

Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for this effect (see section 3).

Given the available data of the individual components

Acute toxicity (oral)

Ammonium sulphate : LD50 (oral-rat): 4.250 mg/kg

Acute toxicity (inhalant)

Ammonium sulphate : LC50 (inhalation-rat): 1.000 mg/L

Acute toxicity (dermal)

Ammonium sulphate : LD50 (dermal-rat): 2.000 mg/kg

Acute toxicity (other routes of administration)

Ammonium sulphate : No data available

Skin corrosion/irritation

Skin irritation

Ammonium sulphate : No data available

Serious eye damage/eye irritation

Ammonium sulphate : No data available

Respiratory or skin sensitization

Ammonium sulphate : No data available

CMR effects (carcinogenicity, mutagenicity and toxicity to reproduction)

Based on available data, the classification criteria are not met, as it does not contain substances classified as dangerous for the effects mentioned (see section 3).

STOT - single exposure

Ammonium sulphate : No data available

STOT - repeated exposure

Ammonium sulphate : No data available

Aspiration hazard

Aspiration toxicity

Ammonium sulphate : No data available

Neurological effects

Ammonium sulphate : No data available

Toxicology Assessment

Toxicology, Metabolism, Distribution

No data available

Acute effects

No data available

Further information

No data available

SECTION 12: ECOLOGICAL INFORMATION

12.1 Toxicity

Toxicity to fish

Ammonium sulphate : LC50 (Oncorhynchus mykiss): 53 mg/L

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH),
regulation (EU) No 453/2010 and regulation (EC) No 830/2015

Version: 1.1

Revision date: 14/09/2017

Date of previous issue: 31/01/2017

Fertilizer Nutriphos classic 16-20-0+32SO₃

LC50 (Prosopium williamsoni): 57,2 mg/L

Toxicity to daphnia and other aquatic invertebrates

Ammonium sulphate : EC50 (Daphnia magna): 169 mg/L

Toxicity to bacteria:

Ammonium sulphate : No data available

12.2 Persistence and degradability

Biodegradability

: The product is expected to be biodegradable.

12.3 Bioaccumulative potential

Bioaccumulation

: No data available

12.4 Mobility in soil

Surface tension

: No data available

12.5 Results of PBT and vPvB assessment

The product does not meet the criteria for classification as PBT or vPvB.

12.6 Other adverse effects

Additional ecological information

: Prevent surface and ground-water infiltration, as well as ground penetration.

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Advice on disposal and packaging : Disposal:
According to National and European regulations. It should not be disposed of with household wastes. The appropriate waste code(s) should be assigned by the user, based on the product usage.

The following Waste Codes are only suggestions:

Waste Code (EWC) : EWC disposal code no. (unused product):
06 06 03 wastes containing dangerous substances

Disposal of uncleaned packaging (EWC) : EWC disposal code no. (uncleaned packaging):
15 01 06 mixed packaging
Note: After rinsing with plenty of water, empty bags can be transported to licensed units / management organizations for recycling.

SECTION 14: TRANSPORT INFORMATION

The product is not subject to international regulations governing the transport of dangerous goods (ADR/RID, IMDG, ICAO/IATA).

SECTION 15: REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

VOC (1999/13/EC) : Not applicable.

Seveso III - DIRECTIVE 2012/18/EU OF THE EUROPEAN : Not applicable.

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH),
regulation (EU) No 453/2010 and regulation (EC) No 830/2015

Version: 1.1

Revision date: 14/09/2017

Date of previous issue: 31/01/2017

Fertilizer Nutriphos classic 16-20-0+32SO₃

**PARLIAMENT AND OF THE
COUNCIL on the control of
major-accident hazards involving
dangerous substances**

Further information : Fertilizer. For use by professional users and the general public.

15.2 Chemical safety assessment

The Chemical Safety Assessments of the mixture's components have been performed.

SECTION 16: OTHER INFORMATION

This product is not subject to Regulation (EU) 98/2013, but all suspicious transactions, disappearances and thefts should be reported to the relevant authority.

Full text of H-Statements referred to under sections 2 and 3

Revised points:
SECTION 16

Acronyms and abbreviations

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road (2015)
CAS No: Chemical Abstracts Service Number
EmS: Emergency Schedules
EINECS No: European Inventory of Existing Commercial Chemical Substances Number
GHS: Globally Harmonized System of Classification and Labelling of Chemicals
IATA-DGR: International Air Transport Association's-Dangerous Goods Regulations (56th edition)
ICAO-TI: International Civil Aviation Organization's-Technical Instructions
IMDG Code: International Maritime Dangerous Goods Code (36th - 37th amendment)
RID: Regulations Concerning the International Transport of Dangerous Goods by Rail

This Safety Data Sheet was elaborated on the basis of information provided by the manufacturer, as well as, suppliers of individual components and on the basis of data in publicly accessible databases.
All information provided herein is deemed reliable and is intended to ensure optimal protection during transport, handling and storage of our products.
However, the present should not be considered as a warranty or quality specification.
